30 June 2015

Manulife launches Shariah-compliant flexi fund to deliver benefits of multi-market exposure

Kuala Lumpur – Manulife Asset Management Services Berhad today announced the launch of the **Manulife Investment-ML Shariah Flexi Fund** (the Fund), which is the sixth fund in the company's award-winning Flexi Series of unit trusts. The Islamic mixed-asset growth fund seeks to provide long-term* capital appreciation to investors by investing in a diversified portfolio of Shariah-compliant equities, sukuk bonds and Islamic liquid assets.

The Flexi Series has won a total of 11 awards from Lipper and Morningstar during the period 2011 to 2015. Most recently, the Manulife Investment-HW Flexi fund received the "Mixed Asset MYR Flexible" fund award in the 5-year category of The Edge-Lipper Malaysia Fund Awards 2015.

Mr. Wong Boon Choy, Chief Executive Officer and Executive Director of Manulife Asset Management Services Berhad, said: "Through market engagement we have become aware that many Malaysian investors have difficulty determining how and when to rebalance their unit trust investment portfolios to reflect fluctuating investment market conditions. The Manulife Investment-ML Shariah Flexi Fund adopts a flexible asset allocation strategy under which our investment professionals draw on their expertise to adjust exposure to asset classes and investment markets as necessary, taking this responsibility out of the hands of individual investors."

Wong continued, "The net asset value of our Flexi Series has grown significantly since we launched the first constituent fund in 2005. We are proud that aggregate assets under management in the series of funds recorded annual growth of 31% over the five years ended 31 December 2014. This has been driven by continued positive response from investors who are looking for options that allow them to invest with peace of mind while also offering the potential for a reasonable rate of return."

The new fund's flexible asset allocation strategy allows it to invest up to 98% of its net asset value ("NAV") in a single asset class of Shariah-compliant equities. However, when the Fund Manager expects a bearish equity market, up to 100% of the NAV can be shifted to Shariah-compliant fixed income instruments which consist of sukuk bonds, Islamic money market instruments and Islamic liquid assets.

Mr. Jason Chong, Chief Investment Officer and Managing Director of Manulife Asset Management Services Berhad, explained: "The Fund's flexible asset allocation strategy is an all-weather approach that has the potential to deliver equity capital gains during market upturns while also having the potential to generate steady income based on sukuk bonds and/or Islamic money market instrument investments amid a downturn."

"Manulife Investment-ML Shariah Flexi Fund is the first Shariah-compliant fund in the Flexi Series that may invest up to 30% of its NAV in the Asia Pacific region, including in China, Hong Kong, Indonesia, South Korea, the Philippines, Singapore, Taiwan, Thailand and Japan. Thus, the Fund can be an efficient way for investors to add geographical diversification to their portfolios and to benefit from returns opportunities in regional markets."

The Manulife Investment-ML Shariah Flexi Fund is suitable for investors who are willing to accept a medium to high level of risk, seek capital appreciation, seek investments which conform to Shariah requirements, do not seek a regular income stream and have a long-term investment horizon of at least five years.

During the 21-day initial offer period, which runs from 30 June until 20 July 2015, the initial offer price is RM0.25 per unit. The minimum initial investment is RM1,000 and the minimum additional investment is RM100.

The Manulife Investment-ML Shariah Flexi Fund is distributed by Manulife Asset Management Services Berhad's unit trust advisers.

** Long-term in this context refers to a period of at least five years.*
