Brief Information on the Product

1. What is the Fund about?

The Fund is a feeder fund that invests in the Manulife Global Fund – India Equity Fund and aims to achieve long-term capital growth through equities and equity-related investments of companies covering different sectors of the India economy and which are listed on stock exchanges in India or on any stock exchange. The remaining assets of the Target Fund may include bonds, deposits and other investments.

Note: Any material change to the Fund's investment objective would require unit holders' approval.

Product Suitability

2. Who is the Fund suitable for?

The Fund is suitable for investors who:

- seek an investment in the India market; and
- are willing to accept higher risk in their investments in order to achieve long-term (a period of at least 5 years) capital growth.

Key Product Features

3. What am I investing in?

Fund Category	Feeder Fund (Equity)
Investment Strategy and Policy	<p>The Fund will invest at least 85% of the Fund's net asset value ("NAV") in share Class I3 Acc of the Manulife Global Fund - India Equity Fund (the "Target Fund"), while the balance of the Fund's NAV will be invested in cash, money market instruments (including fixed income securities which have a remaining maturity period of less than 365 days), placement of deposits with financial institutions for liquidity purposes and/or derivative for hedging purposes.</p> <p>Although the Fund is passively managed, the investments of the Fund will be rebalanced from time to time to meet redemptions and to enable the proper and efficient management of the Fund. In all circumstances, the Fund will continue investing at least 85% of its NAV in the Target Fund and as such, the performance of the Target Fund will reflect on the Fund's performance.</p> <p>Notwithstanding the above, the Manager may, in consultation with the Trustee and with the unit holder's approval, replace the Target Fund with another fund of a similar objective if, in the Manager's opinion, the Target Fund no longer meets this Fund's investment objective, or when the Target Fund no longer acts in the interest of the unit holders.</p>

Asset Allocation	<u>Asset Class</u>		<u>Allocation (% of the Fund's NAV)</u>
	Target Fund		Minimum 85%

Domicile Country	Luxembourg
Regulatory Authority of the Target Fund	Commission de Surveillance du Secteur Financier
Date of Establishment	30 November 2006
Name of Share Class	Share class I3 Acc
Investment Objective of the Target Fund	<p>The Target Fund aims to provide long term capital growth for those investors who hold a long term investment view and are prepared to accept significant fluctuations in the value of their investments. At least 70% of its net assets will be invested in equity and equity-related securities of companies covering the different sectors of the Indian economy and which are listed on a stock exchange either in India or on any stock exchange. Such equity and equity-related securities include common stocks, preferred stocks, and depositary receipts. The remaining assets of the Target Fund may include bonds, and deposits. Investments in the Indian market shall be made through an Foreign Portfolio Investor ("FPI") registered with the India regulator. Such an FPI can be either Manulife Global Fund or the Investment Manager of the Target Fund.</p>
Investment Policy and Strategy of Target Fund	<p>While the Target Fund will invest in accordance with its investment objective and strategy, subject to applicable laws and regulations, the Target Fund is not otherwise subject to any limitation on the portion of its net assets that may be invested in any one country or sector and in issuers of any market capitalisation. Due to the nature of the investment portfolio of the Target Fund, securities of small and medium sized companies may represent, at times, more than 30% of the net assets of the Target Fund. The Target Fund's investments may be denominated in any currency, however, primarily in Indian Rupee.</p> <p>It is not the intention of the Target Fund to invest more than 10% of its net assets in securities issued, or guaranteed, by any single sovereign (including the relevant government, public or local authority) which has a credit rating that is below investment grade (i.e. below Baa3 by Moody's Investors Service or BBB- by Standard & Poor's or Fitch Ratings).</p>

Key Risks

5. What are the key risks associated with this Fund?

Manager's Risk

This risk refers to the day-to-day management of the Fund by the Manager which will impact the performance of the Fund. For example, investment decisions undertaken by the Manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the deed, relevant law or guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the Fund.

Market Risk

Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the Fund's NAV.

Loan or Financing Risk

This risk occurs when investors take a loan/ financing to finance their investment. The inherent risk of investing with borrowed/ financed money includes investors being unable to service the loan repayments/ financing payments. In the event units are used as collateral, an investor may be required to top-up the investors' existing instalment if the prices of units fall below a certain level due to market conditions. Failing which, the units may be sold at a lower NAV per unit as compared to the NAV per unit at the point of purchase, towards settling the loan/ financing.

Please note that loan/ financing is discouraged.

Suspension/Deferment of Redemption Risk

The Manager may, in consultation with the Trustee and having considered the interests of investors, suspend the dealings in units of the Fund due to exceptional circumstances such as when the market value or fair value of a material portion of the Fund's assets cannot be determined. No application will be dealt with when suspension of dealing in units are triggered and this will limit the unit holder's right to freely redeem their units in the Fund.

For the purpose of liquidity risk management, the Fund may defer redemption to the next business day if the total net redemption received is more than 10% of the NAV of the Fund on a particular business day. When such redemption limit is triggered, it may jeopardise the Fund's ability to meet unit holders' redemption request and may lead to a delay in repayment of redemption proceeds to investors. Unit holders who are impacted by deferment of redemption are subject to the risks inherent to the Fund which unit holders invested in until the redemption request is processed.

Country Risk

Investments of the Fund (i.e. the Target Fund, which is domiciled in Luxembourg) may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of Luxembourg. For example, the deteriorating economic condition of that country may adversely affect the value of the investments undertaken by the Fund. This in turn may cause the NAV of the Fund or prices of units to fall.

Currency Risk

As the investments of the Fund may be denominated in currencies other than the base currency, any fluctuation in the exchange rate between the base currency and the currencies in which the investments are denominated may have an impact on the value of these investments. Investors should be aware that if the currencies in which the investments are denominated depreciate against the base currency, this will have an adverse effect on the NAV of the Fund in the base currency and vice versa. Investors should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.

A hedged class provides mitigation to the currency risk arising from the difference between the currency of the class and the base currency (except for the RM-Hedged Class, which provides mitigation to the currency risk arising from the movement between RM (currency of the Class) and U.S. Dollar (base currency of the Target Fund)). For this purpose, the Manager engages the Trustee to perform currency hedging for hedged class of the Fund, using currency forward contracts on a monthly rollover basis to passively hedge against currency risk. While we aim to fully hedge the currency risk for a hedged class, you should note that it may not entirely eliminate currency risk.

In addition, you should note that as a result of hedging, a hedged class will not be able to enjoy the full benefits of the currency movement in the event a favourable movement of the currency denomination of the hedged class against the base currency. You should also note that hedging incurs costs, in which will impact the NAV of a hedged class.

Liquidity Risk

Liquidity risk refers to a security which could not be transacted in a timely manner. In the context of the Fund (which invests in the Target Fund), liquidity risk is associated with the Target Fund's ability to meet the Fund's redemption request in a timely manner. If the Target Fund fails to meet the Fund's redemption request, it may jeopardize the Fund's ability to meet its own unit holders' redemption request.

Risk Considerations for Investing in Derivatives

The Manager may use derivatives such as forwards, futures and options to hedge against certain risks such as adverse movements in currency exchange rates or interest rate. This involves special risks, including but not limited to the risk of loss from default by the counterparty, typically as a consequence of insolvency or failed settlement.

The Manager will only enter into hedging transactions where the counterparty is a financial institution with a minimum long-term credit rating of investment grade (including gradation and subcategories) rated by any domestic or global rating agency. In the event where the counterparty's or issuer's rating falls below the minimum required or it ceases to be rated, the Manager will liquidate its position within 6 months or sooner, unless the Trustee considers it to be in the best interest of investors to do otherwise.

To mitigate these risks, all investment in financial derivatives will be closely monitored or efforts will be taken to unwind such positions if there is material adverse change to the counterparty or issuer.

Target Fund Manager Risk

The Target Fund (which the Fund invests in) is managed by the Investment Manager of the Target Fund. It is important to note that the Manager has no control over the investment management techniques and operational controls of the Target Fund. Thus, mismanagement of the Target Fund (i.e. breach of its prescribed investment restriction due to human error) may negatively affect the Fund (as an investor of the Target Fund). Should such a situation arise, the Manager may propose to invest in other alternative collective investment scheme ("CIS") that is consistent with the investment objective of the Fund provided always that the approval of the unit holders has been obtained.

Stock Specific Risk

Prices of a particular stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such stock will adversely affect the Fund's NAV.

Taxation Risk/ Withholding Tax Risk

Certain income of the Target Fund may be subject to withholding and/or income tax, and any such taxes will reduce the return on the investments held by the Target Fund. The Fund may make tax provisions in respect of income received from its foreign investments. The tax laws, regulations and practice are constantly changing, and they may be changed with retrospective effect. The interpretation and applicability of the tax law and regulations by tax authorities may not be consistent and transparent. In this connection, the Fund may be subject to additional taxation that is not anticipated as at the date hereof or when the relevant investments are made, valued or disposed of. Such taxes will reduce the return on the investments of the Fund.

In addition, the Target Fund (through the Management Company of the Target Fund or its agents) may need to receive certain information from an investor for it to avoid certain withholding taxes. In particular, the Foreign Account Tax Compliance Act ("FATCA") adopted in the U.S. will require the Target Fund (or the Management Company of the Target Fund) to obtain certain identifying information about its investors and potentially provide that information to the United States Internal Revenue Service. Subject to certain transition rules, investors that fail to provide the Target Fund, the Management Company of the Target Fund or their agents with the requisite information will be subject to a 30% withholding tax on distributions to them and on proceeds from any sale or disposition or caused the entire Fund to be subject to a 30% withholding tax on income receivable from the Target Fund or on proceeds from any sales or disposition of the Fund. In addition, units held by such investors may be subject to compulsory redemption. Any withholding taxes imposed on the Target Fund could affect the return of investments held by the Fund.

Investors should seek their own tax advice on their tax position with regard to their investment in the relevant Fund.

Valuation and Exiting from Investment**7. How often are valuations available?**

The valuation of the Fund is carried out daily at the end of the business day. Funds with exposure to foreign investments shall be valued at or before 5.00 p.m. on the next business day (or T+1) because of the time difference between Malaysia and the country(ies) where the funds invested in. The NAV per unit of the Fund/ class will be published upon valuation conducted. However, delay may occur in updating the NAV per unit of the Fund/ class. The latest prices will be available on the Manager's website at www.manulifeim.com.my or FIMM's website. Alternatively, unit holders may contact the Manager's Customer Service Hotline.

8. How can I exit from this investment and what are the risks and costs involved?Redeeming an investment

Unit holders may redeem part or all of their investments at any time by completing a "Redemption Form" which is available from 8.45 a.m. to 5.30 p.m. at the office of the Manager and its branches. There is no redemption charge levied on the redemption of units. Redemption proceeds will be paid within seven (7) business days from the date on which the redemption request is received by the Manager at or before the cut-off time.

Unit holders should note that redemption limit or suspension of dealing in units of the Fund may be imposed as part of liquidity risk management. These circumstances may lead to delay in payment of redemption proceeds to you. For more information, please refer to the Transaction Information section of the Fund's prospectus.

	RM Class	RM-Hedged Class
Minimum redemption amount		500 units
Minimum holding/ balance	500 units	1,000 units
Cut-off time	<ul style="list-style-type: none"> 3.00 p.m. for walk-in transactions or any other time that may be determined by the Manager, and 4.00 p.m. for online switching. 	

Cooling-off period

The cooling-off period is only applicable to any individual investing for the first time in any unit trust funds managed by the Manager and excludes staff of the Manager and persons registered with a body approved by the SC to deal in unit trusts. You have the right, within six (6) business days from the day of the receipt by the Manager of your application form, to call for a withdrawal of your investment. The money invested will be refunded to you subject to the conditions as set out in the prospectus of the Fund. In the case of an investment via EPF-MIS, the cooling-off period is subject to EPF's terms and conditions (if applicable).

Withdrawal proceeds will only be paid to you once the Manager has received the cleared payments for the original investment.

For purchase/ redemption transaction made with IUTAs, the transaction is subject to the terms and conditions of the respective IUTAs. Also, if you invest in units through an IUTA which adopts the nominee system of ownership, you will not be considered as a unit holder under the Fund's deed, and you may consequently not have all the rights ordinarily exercisable by a unit holder (for example, the right to call for a unit holders' meeting and to vote thereat, and the right to have your particulars appearing in the Fund's register of unit holders).
